Lydia Makaroff, *Director, European Cancer Patient Coalition*

Mark Lawler, *Chair in Translational Cancer Genomics, Centre for Cancer Research and Cell Biology, Queen's University Belfast*

Questions and answers

17:00-17:15: Closing session: Integrating innovation into healthcare - the next steps

Denis Horgan, *EAPM Executive Director*

Jasmina Koeva, *Director, Bulgaria Alliance for Personalised Medicine*

Giovanni La Via, *Member of the European Parliament*

European Alliance for
Personalised Medicine

European Alliance for Personalised Medicine

About EAPM

The European Alliance for Personalised Medicine (EAPM) , launched in March 2012, brings together European healthcare experts and patient advocates involved with major chronic diseases.

The aim is to improve patient care by accelerating the development, delivery and uptake of personalised medicine and diagnostics, through consensus.

As the European discussion on personalised medicine gathers pace. EAPM is a response to the need for wider understanding of priorities and a more integrated approach among distinct lay and professional stakeholders.

The mix of EAPM members provides extensive scientific, clinical, caring and training expertise in personalised medicine and diagnostics, across patient groups, academia, health professionals and industry. Relevant departments of the European Commission have observer status, as does the EMA.

EAPM is funded by its members.
